## Work Experience

2010 - 2021

**Amadeus** global distribution system (GDS)

Amadeus is a GDS that enables transactions between travel industry service providers, such as airlines, hotels, etc. and travel agencies.

Online projects **design** and **UI**. My job consists of improving designs of existing online products, in co-operation with the product manager and/or the developers' team.

I designed a user **interface & CRM** that measures employees' productivity. My responsibility included checking the quality of performance and pixel-perfect accuracy.

I created **websites** for Travel Agencies (\*designing and coding)

I created **marketing** materials for the companies costumers as well as presentations for conferences.

2008 - 2010

**Manch Studio** web design studio

I designed various websites and did the coding in html & css made sure they are SEO-ready, animated banners, newsletters, landing pages and mini-sites

2006 - 2008

**Zedesign Studio** Interactive Studio

As part of a team who was in charge of the entire advertisements campaigns for companies - mainly flash animations ads I was working mainly with Flash CS3 & Action Scripts

2005 - 2006

**Sdesign** Freelance Web Design

Freelance web design and development, logos, banners, newsletter, flyers, business cards
